

TOWN HOUSE ADVISORY GROUP
MINUTES
April 21, 2022

Attending: Rockwell Fuller, chair, Paul Kifner, overseer, Steve Handy, Curt Albee

1. The belfry railing work is progressing. Rocky delivered the finials for the posts of the railing to Mike Catroneo. Mike's budget is a bit tight so several THAG members have volunteered to put the final coat of paint on the railing. The delivery of the railing is expected in the next three weeks.
2. Grounds upkeep day will be Wednesday, 27 April thanks to Red Taplin for initiating the event. Lime, Topsoil and mulch will be spread as removal of excess stones and gravel from the conduit installation.
3. Interior clean-up day will be Sunday 1 May
4. Conduit will be run from the fire station to the Town House on Saturday 23 April. The conduit will allow for internet cable for ECFiber internet service. Rocky will pick up a ditch digger. Steve will help with the laying of the conduit. Shawn Ward and his partner Raelyn will head up the installation.
5. The Group agreed that the center isle carpet which Martha Manheim funded should match the color of the dark blue of the interior of the woodwork in the building. Paul would like a 4'x6' piece for the stage to cover wires.
6. The annual Town House Fund raising event, normally held at the beginning of June, will be postponed due to Covid. The event could possibly be held later in the summer depending on the state of the pandemic. Paul suggested that it might be combined with a music event currently scheduled for 30 August.
7. Paul has been reinstated as Town House Overseer for another year.
8. The next THAG meeting is scheduled for 26 May at 5 PM at the Town House.
